SUMMARY

B.Tech Computer Science graduate who builds web apps with React, JavaScript and Tailwind CSS, with backend work in Python and SQL. Led a team of 5 interns at Distil that delivered 6 client websites in 3 months. Built and deployed a multi-page e-commerce front end and a full-stack pricing engine with a FastAPI backend.

SKILLS

Languages: JavaScript (ES6+), Python, SQL, HTML5, CSS3

Front-end: React, Tailwind CSS, React Router, Context API, Framer Motion, Responsive Design

Back-end & Databases: FastAPI, REST APIs, MySQL, PostgreSQL

Core CS: Data Structures & Algorithms, OOP, DBMS, Unit Testing

Tools: Git, GitHub, Netlify, VS Code, Jira, Agile

EXPERIENCE

Distil Ventures Limited **Apr 2024 – Jul 2024**

Web Developer Intern

- Led a 5-member intern team to build and deploy 6 client websites within 3 months, working through daily stand-ups and manager feedback.
- Tracked and fixed 60+ layout, responsiveness and functional issues through structured testing, improving reliability across the client sites.

Turing **Mar 2026 – Aug 2026**

Business Analyst (Freelance)

- Reviewed 200+ AI-generated responses weekly against structured quality criteria, with 92% agreement with senior reviewers.
- Validated 40+ data samples weekly, running checks to find inconsistencies, exceptions and recurring patterns.
- Tracked task-level metrics and quality trends, and reported findings to support process improvements.

PROJECTS

Apna Fashion – E-commerce Front End | React, Tailwind CSS, Framer Motion github.com/koushikxy/apnafashion.in

- Built a 13-route streetwear store in React with React Router, covering home, category, product, search, cart, wishlist, checkout, login and an admin dashboard for revenue, inventory and orders.
- Managed app state with 7 Context API providers, keeping cart, wishlist, login and order history in localStorage, and added a spring-animated cart drawer with Framer Motion.
- Added live search suggestions in the navbar, a dark mode that follows the system setting, and a catalogue of 32 products across 4 categories with dynamic product and category pages; deployed on Netlify (apnafashion.netlify.app).

Hero Cycles Pricing Engine | Python, FastAPI, JavaScript github.com/koushikxy/hero-cycles-pricing

- Built a date-aware pricing engine for 15 cycle parts across 6 component groups, where each part keeps a price history and quotes use the price valid on the chosen date.
- Exposed it through a CLI and a FastAPI backend with 2 endpoints, plus a vanilla JS web configurator with live recalculation and validation of invalid part combinations; covered price changes and invalid parts with 4 unit tests.

Portfolio Website | React, Tailwind CSS github.com/koushikxy/koushik-maity-portfolio

- Built and deployed a 6-page portfolio with React Router and Tailwind CSS on Netlify, with a responsive layout for mobile and desktop.
- Added project, experience and certificate pages and a downloadable CV, and keep it updated by pushing to GitHub, which redeploys on Netlify automatically.

EDUCATION

XIM University, Bhubaneswar **Aug 2021 – Apr 2025**

B.Tech in Computer Science and Engineering (Hons.) | CGPA: 7.06/10

CERTIFICATIONS

React JS – Infosys Springboard	2023
CSS (Skill Certification) – HackerRank	2023
JavaScript for Beginners – Udemy	2023
Google Data Analytics Professional Certificate	2025
